

Why join?

The „professionals & profiles“ package offers best opportunities in both the „sb“ specialist magazine and in the online database on the IAKS website – and is exclusively for IAKS member companies.

How does it work?

In the section “professionals & profiles” you can publish product and company information in word and image on a half page in three issues of your choice per year. In addition, you appear in each issue with all your contact data and company logo in the address and trade directory.

Additionally, you are listed at top-level in the online database on the IAKS website. The premium data entry comprises:

- Company logo
- Up to 10 of your main activities
- Your company profile, company history, reference projects, product innovations and other information in a supplementary box
- Pictures of your products or reference projects
